Sonodyne Malhar: The wireless speaker with a thump

Produced by: Pranav Dixit

SONODYNE

Powerful Audio Output

Delivers 180 watts of high-fidelity sound, ensuring immersive listening across various genres.

Precision Drivers

Equipped with dual 5-inch glass-fibre cone woofers and 1-inch neodymium magnet silk-dome tweeters for deep bass and clear highs.

Dual Passive Radiators

Features two side-mounted passive radiators that enhance low-frequency response, providing rich and detailed bass.

SONODY

Multiple Connectivity Options

Offers Bluetooth 5.0, USB Audio, Optical, and Analog stereo inputs, allowing seamless integration with various devices.

Duet Mode for Expanded Soundstage

Link two Malhar speakers to create a wider soundstage, perfect for larger spaces or enhanced stereo separation.

Elegant Wooden Cabinet

Crafted with a rigid MDF enclosure and available in multiple finishes, it combines aesthetic appeal with acoustic performance.

User-Friendly Controls

Comes with an intuitive control panel and a full-featured infrared remote for convenient operation.

Built-in Limiter for Distortion-Free Sound

Incorporates a built-in limiter to prevent distortion, ensuring clear and fatigue-free listening even at high volumes.

Price & Availability

The Sonodyne Malhar is available on <https://www.sonodyne.com/> at ₹35,999
